

1SEK/M-KP

2 WIRE VIDEO KIT WITH ACCESS CONTROL - 1SEK/M-KP

One-way video intercom kit based on 2 wires, not polarized technology with integrated access control feature. The LCD-TFT monitor is 7" sized, hands free with touch screen feature and soft touch buttons: it delivers good audio quality and very user friendly operation. The monitor and system programming can be done by multi language OSD menu with icons which allows also to program date and time, select call chime for door bell, external call and intercommunication among different tones and choose different volumes for the call ring during night and day. Moreover the system can automatically record a picture of the caller or, adding an optional SD card, a 10 seconds video footage. The external station is robust and compact, it is also featured with touch sense keypad and multi colour back lighting: special care has been put on the design for a modern and nice appeal. It provides access control features allowing to program up to 40 code passwords for door unlock. It is suitable for surface mounting and the name plate is even blue back lighted. It can also drive a door lock (DC or AC). The system power supply is a DIN rail type. It is possible to install an additional monitor into the same apartment and the intercommunicating facility also available. Other accessories: wall bracket for monitor, sun shield for external station and fixing accessories.
